Art Unit: 1723

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 2, line 2 ";" has been replaced with --and--.

In each of claim 1, line 3 and claim 7, line 6 –nail guiding means comprising— has been inserted after “and”.

In line 2 of each of claims 7 and 11 ";" has been replaced with --,--.

In line 3 of each of claims 7 and 11 ";" has been replaced with --, and--.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey Hubbard on March 24, 2004.

The following is an examiner's statement of reasons for allowance: Independent claims 1 and 7 are now deemed to distinguish over the prior art of record as well as newly cited patents 5,454,663; 5,007,224 and 4,490,067 in view of respective recitations of "... nail guiding means comprising a pair of parallel, planar projections attached to and extending from the elongated conduit". The prior art of record, especially Molitor, teaches the claimed deck drain conduit with top section, mid section and main channel section with various parallel planar projections, such as flanges extending away from mid and top portions of deck drain conduits, while the newly cited prior art includes nail guiding means in the form of orifices through drain conduit walls, however no combination of prior art suggests nail guiding means in the form of planar projections to aid in initial installation of the supporting nails.
